DETAILED ACTION

Allowable Subject Matter

Claims 1, 4, 9, 12, 17, and 20 are allowed.

The following is an examiner's statement of reasons for allowance: References Ono et al. (5,588,097) and Lines et al. (5,557,714) are made of record as teaching the art of defining an axis of rotation via user defined points and an angle of rotation. However, none of the city prior art teaches or suggests determining an axis of rotation as a first line through a center of the display screen perpendicular to a second line from the detected coordinate through the center of the display screen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
